

Tying Method for the Newborn Pouch Hold

▶ Step 1

After tying on sling (refer basic tying method), place baby over your shoulder and pull out the shoulder piece closest to your body as shown.

Step 2 ◀

Carefully place baby legs first into the shoulder piece, ensuring legs are tucked up under baby's tummy. Stretch the fabric over baby's entire bottom, back and shoulder.

▶ Step 3

Stretch the other shoulder piece securely over baby's bottom, back and shoulder also.

Step 4 ◀

Pull the front flap (containing the logo) up over baby's back.
